WE STAND FOR:

- ◇ A publicly owned health service that puts people before profit!
- ◇ An open, accountable and democratically run health service!
- ◇ Quality, accessible health care free at the point of delivery for all!

Dr Clive Peedell

Dr Clive Peedell, Consultant Oncologist at a North-East Hospital is an outspoken critic of the NHS reforms. His prominent position within the NHS and BMA led to a public letter being printed and signed by over 100 consultants in the British Medical Journal.

He believes *"market based policies enshrined within the Health and Social Care Bill are ideologically driven and will undermine the founding principles of the NHS, leading to increasing fragmentation and privatisation of the English NHS"*.

Major Government NHS reforms will leave private companies queuing up to profit from our health. Privatisation leads to lower quality fragmented services, unemployment, postcode lotteries and compromises your doctor's ethical code.

Public opposition forced the coalition into "listening mode" which has led to a shoal of government amendments but are these just a smokescreen? Under the original Bill up to 64% or even more of frontline NHS services were at risk of being privatised.

Meanwhile the cuts and reforms continue. Has anything really changed in terms of the danger to the status of the NHS?
